EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a. In the paragraph beginning at page 23, line 21, in the fifth line from the end of the paragraph as amended on 6/5/06, "not shown" was changed to, --shown schematically in Figure 2--, as the means preventing rotation should be illustrated without adding new matter (i.e., "schematically").

b. In the paragraph beginning at page 23, line 21, in the third line from the end of the paragraph as amended on 6/5/06, "not shown" was changed to, --shown schematically in Figure 2--.

c. In claim 1, line 46, "strut member" was changed to: --strut--, as there is no antecedent basis for left and right strut members.

2. The following changes to the drawings have been approved by the examiner: In Figure 2, as illustrated in the enclosed drawing, an opening will be added to mounting member 24 aligned with the hole in plate 108 and a schematic fastener will also be

added. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
